**Subject:** RE: Request for Proposal – Private Utility Mark-Out, Geoprobe® Temporary Well Point Installation, and Groundwater Elevation Survey Services at the Canadian Radium & Uranium Corp. Site

Hi Tim and Ben,

Thank you very much for sending this RFP over. We would be interested in providing pricing for this work, however, we are unable to meet the required schedule as we are booked until the week of 12/19. Please don't hesitate to contact me if the work is delayed for any reason and I would be happy to provide a proposal for this project.

Thanks again and have a good Thanksgiving holiday,

Will

**Subject:** Request for Proposal – Private Utility Mark-Out, Geoprobe® Temporary Well Point Installation, and Groundwater Elevation Survey Services at the Canadian Radium & Uranium Corp. Site

Mr. Hackett,

Please find enclosed a formal Request for Proposal (RFP) for Private Utility Mark-Out, Geoprobe® Temporary Well Point Installation, and Groundwater Elevation Survey Services to be conducted at the Canadian Radium & Uranium Corp. Site located at 105 Kisco Avenue in Mount Kisco, Westchester County, New York beginning on Tuesday, December 13, 2016.

The purpose of this event is to determine if there are any elevated radiation levels in the groundwater found beneath the Site. To complete the requested scope of work, three soil borings will be advanced using an ATV/track-mounted Geoprobe® at pre-determined locations on-site to a maximum depth of up to 30 feet below grade. The borings will be advanced until they have penetrated 10 feet into the water table. After the total depth is reached, one 2-inch inner-diameter temporary groundwater well point will be installed with Schedule 40 polyvinyl chloride (PVC) and slot 0.010 PVC screen at each of the three locations. After the temporary well points have been installed and purged, they will be allowed to stabilize overnight. Prior to groundwater sampling the following day, a complete groundwater elevation survey will be completed for the three installed temporary well points. Vertical accuracy for the survey shall be to within 0.010 foot and horizontal accuracy shall be to within 0.10 foot as described below. **Please pay special attention to the technical requirements listed in Section 3.0 of this RFP.**

**The Price Quotation Form, i.e., Section 4.0 of this RFP, must be provided by email no later than 12:00 P.M. (EST), Wednesday, November 30, 2016. The original and one copy of the offeror's completed and full response must arrive or be emailed no later than 12:00 P.M. (EST), Thursday, December 1, 2016.** If you do not plan on bidding on this RFP please reply by email stating as such. If you have any questions or comments please submit them in writing via email to Timothy Benton at: [tim.benton@westonsolutions.com](mailto:tim.benton@westonsolutions.com)

Thanks,

## **JUSTIFICATION OF AWARD**

- 1     **Prime Contract No:** EP-S2-14-01
2.     **Purchase Order No.:** TBD
3.     **Subcontractor Name:** Environmental Field Services, Inc.
4.     **Debarred List Checked:** Environmental Field Services, Inc. is not listed in “List of Parties”, dated: 12/1/2016.
5.     **Business Size:** Small Business
6.     **Description of Supplies or Services:** Private utility locating, Geoprobe drilling and temporary well installation, and groundwater survey services for on-site groundwater investigation.
- 7:     **Background:** Base TDD No. TO-0007-0023 was issued to Weston Solutions, Inc. on July 1, 2016 to provide continued support for the investigation to be conducted at the Canadian Radium & Uranium Corp. Site.
8.     **Type of Subcontract:** Firm Fixed-Price
9.     **Basis for Subcontract Selection and Extent of Competition:** The RFP was submitted to five drilling firms. Two qualified bids were received. One firm did not bid on the RFP due to their inability to meet the schedule. Two firms did not respond to the solicitation. The lower of the two qualified bids received was chosen.
10.    **Period of Performance:** December 13 and 14, 2016
11.    **Subcontract Amount:** \$9,040.00
12.    **Cost or Price Analysis:** Competitively bid.
13.    **Cost and Pricing Date Requirement:** November 30, 2016
14.    **CAS Certification:**

\_\_\_\_\_Applicable and in file

  X   Not Applicable, Procurement under \$500K

\_\_\_\_\_ Not applicable, competitive Award (per 48 CFR 9903.201(15))

15. ACO Notification and Consent:

\_\_\_\_\_ Consent and/or Advance obtain and in file

  X   Consent and/or Notification not required

  X   52.244-1, Firm Fixed Price contract, Weston has an approved purchasing system.

  X   52.244-2 Subcontract is fixed price under 25K.

\_\_\_\_\_ 52-244-3 N/A

\_\_\_\_\_ 52.344-4 N/A

16. Competitive savings:

Subcontracting services are being requested due to internal Weston resources not having the equipment necessary to complete the project scope established by the OSC under TDD No. TO-0007-0023. Weston would have to rent the electronic metal detector, GPR, utility locating instruments, drilling, and survey equipment. This would be more expensive then obtaining the services of a local subcontractor already equipped with personnel and equipment.
